

Potato Launch Competition
Example Score Calculation

Potato #2 Landed inside the target at 100 m, a distance of 8.84 m from its center.
[SCORE = $8.85 \cdot 5 \approx 1.77$]

Potato #3 Landed outside the target at 50 m.
[SCORE = 10.00]

Potato #1 Landed inside the target at 30m, a distance of 7.20 m from its center.
[SCORE = 7.20]

TOTAL SCORE = $7.20 + 10.00 + 1.77 = 18.97$
