

Total: 763 planets
April 2012

Planet Detection Methods

Decreasing planet mass

Discovered:	16 planets	477 planets		15 planets	31 planets	224 planets
Detected:	16 planets (11 systems, 4 multiple)	701 planets (559 systems, 94 multiple)	4 planets	15 planets (14 systems, 1 multiple)	31 planets (27 systems, 2 multiple)	230 planets (196 systems, 29 multiple transit)

— existing capability projected (10–20 yr) n = planets known → discoveries ⇨ follow-up detections
